

TYLER OLMSTED

PROFILE

With over fifteen years in the tech industry, Tyler has led software teams in developing world-class SaaS and mobile applications, overseeing their journey from concept to launch. Tyler is passionate about unlocking an organization's full potential by fostering a culture centered on user-centric innovation and consistently challenging the limits of what is achievable.

EXPERIENCE

VICE PRESIDENT OF ENGINEERING

Backflip 2022 - 2024

Joining Backflip in early 2022, Tyler established the engineering teams and led the **launch of the flagship iOS and Android apps**. Throughout his tenure, Tyler guided the team through a **successful Series A funding round** and was responsible for developing the company's engineering and IT infrastructure.

EXECUTIVE DIRECTOR OF ENGINEERING

RE/MAX LLC. 2017 - 2022

In his role as Executive Director of Engineering, Tyler's responsibilities included overseeing the **roadmaps, processes, personnel, resourcing, and budgets** for RE/MAX's product engineering teams following the booj acquisition. Collaborating closely with the product, support, and training teams, Tyler played a key role in developing and maintaining RE/MAX's top-tier technology platform.

DIRECTOR OF PRODUCTION

booj 2007 - 2017

Joining the company as the second employee, Tyler played a pivotal role in building and **leading the engineering teams for over a decade** at booj. His contribution was instrumental in the development of **booj's award-winning real estate platform**, which culminated in its **acquisition by RE/MAX in 2017**. Tyler oversaw the teams responsible for creating core products, including the home search mobile apps, Agent web/mobile CRM, CMS website builder, lead management engine, marketing campaign tools, and a real estate reporting suite.
